

Lab Walk marker LW2

QR code text: LW2 | black square 15.0 cm x 15.0 cm

Print at Actual size (100%). Do not use "Fit to page" or "Shrink". The black square must measure 15.0 cm: check with the 10 cm bar below. Keep all the white paper around the code (at least 3 cm). Tape it flat and level on the wall, in even light, away from glare. Matte paper works best. Record its position: floor to the bottom edge of the black square + 7.5 cm = height of the center; room corner to the nearer side edge + 7.5 cm = distance of the center along the wall. The Rhino model needs a point named "LabWalk marker LW2" exactly at the center, on the wall surface.

10 cm (check with a ruler)
